Every Party Includes All This!

HD Coverage

The best way for me to help you enjoy your party is to keep a low profile. Microphones are worn by speakers or hidden on podiums. At the party, I use at least one HD camera and 1 time-lapse. I do interviews only upon request. To blend in, I wear cheerful colors for children's parties and I wear black for teen & adult parties.

Movie Style Editing

All of the best movies contain a combination of documentary footage and montage footage arranged in 3 Acts. This is why I use a combination of editing styles with music reviews at different point throughout the story.

The Party Motion Picture Show

See back page for description.

Full Ceremony

This is your whole Temple ceremony edited in real time with natural sound.

I use one manned camera and two strategically placed remote cameras for the most unobtrusive coverage possible. Lapel mics are worn by speakers.

Party Review

This is an edited montage set to one or two songs. This is where you get to see all of the candid little looks and actions of your guests without having to hear the noisy din of chatter & clinking dishes.

Party Highlights

Highlights are where you see and hear everything with natural room sound. Interviews, speeches, dances etc. will appear here.

The purpose of reception coverage:

- 1) to remember what happened
 - 2) to remember who was there!
- I'll capture shots of guests chatting & dancing, waiters serving ...No detail is overlooked! Interviews by request only.

Closing Review

This is an edited montage set to one song. This is a video montage that comes at the end of the program. It summarizes either the whole party OR just the last part of the party (depending on what's going on and which approach is most fitting to the story).

How Long Will it Be?

1 Hour Coverage Time = at least 10 Minutes of screen time.

(So much depends on what actually happens at your party; things I can't control or predict.)

Sales tax in Los Angeles is currently 9.75%
