Your Video Includes All This

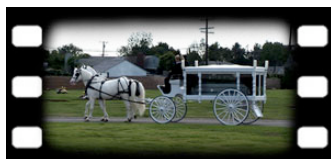

HD Coverage

Packages are sorted based on the number of cameras you want me to use. I can use up to 3 HD cameras to cover the service(s). Everything that happens while I am there will be recorded to the best of my ability. (Usually that includes the funeral, last respects, travel to internment site & graveside service). I strive to remain as inconspicuous as possible and remote cameras really help me do that. I place a remote camera to the rear and operate the main one from the side or center aisle. A microphone(s) is typically hidden on the podium(s).

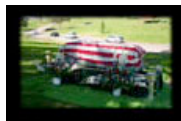

DVDs with Custom Covers
Up to 10 copies included.

Documentary Style Editing

Memorial events are edited in chronological order using natural sounds. I often add music based on what you played during the service (or classical orchestration) where appropriate. I also employ a picture-in-picture effect where appropriate. DVDs are available in Blu-Ray upon request. DVDs are mailed to any address(s) you provide within 30 days. (International OK)

Booking Instructions: Click **CONTRACTS** on my website and fill out the funeral contract form provided. Then I will email a contract for you to sign. You can give me a check when we see each other at the funeral.
